Palakkad, Kerala, India

Professional Summary

Passionate 3rd-year B.Tech Computer Science & Engineering student with hands-on experience in UI/UX design and frontend development. Skilled in creating user-centric digital experiences that blend aesthetic appeal with functional usability. Active contributor in tech communities including TinkerHub, ISTE, STACS, and IEDC. Seeking opportunities to apply design thinking and development skills in impactful, real-world projects.

Education

NSS College of Engineering — **Palakkad, Kerala, India**
Bachelor of Technology, Computer Science & Engineering — *Nov 2024 – Present (Expected 2028)*

Experience

Creative Designer — **Feb 2026 – Present**
IEDC (Innovation & Entrepreneurship Development Cell) — *NSS College of Engineering, Palakkad*
- Design promotional materials, social media graphics, and event creatives for IEDC activities
- Collaborate with the core team to maintain consistent visual branding across all IEDC communications
- Create engaging digital content that communicates entrepreneurship and innovation culture

Creative Designer — **Feb 2025 – Present**
ISTE (Indian Society for Technical Education) — *NSS College of Engineering Student Chapter*
- Created design assets for ISTE chapter events, technical workshops, and awareness campaigns
- Worked on visual identity materials including banners, pamphlets, and social media content

Creative Designer — **Aug 2025 – Aug 2026**
TinkerHub — *NSS College of Engineering Campus Chapter*
- Designed social media handles, event posters, and branding creatives for TinkerHub's campus community
- Received highly positive outreach response for visually appealing designs aligned with TinkerHub's brand tone
- Supported peer-learning initiatives through design assets for workshops and coding events

Creative Designer — **Nov 2024 – Feb 2025**
STACS (Student Association of Computer Science) — *NSS College of Engineering*
- Designed promotional materials and event graphics for STACS department events and fests
- Contributed visual design to inter-departmental competitions and department publications

Projects

Kottakkal Arya Vaidya Sala – Clone Website & App Design | *Figma, UI/UX* — **2025**
- Designed a comprehensive clone of the Kottakkal Arya Vaidya Sala website and mobile app
- Applied Ayurvedic brand aesthetics with modern, user-friendly interface patterns
- View Website Design | View App Design

Student Planner | *Figma, UI/UX Design* — **2025**
- Designed an intuitive student planner application focusing on productivity and clean UI
- Created wireframes, user flows, and high-fidelity prototypes in Figma
- View on Figma

Expense Tracker | *HTML, CSS, JavaScript* — **2025**
- Built a fully functional expense tracking web application with add/delete transaction features
- Implemented real-time balance calculation, income/expense categorization, and local storage persistence
- github.com/kh-nabeel/ExpenseTracker

StadiumSense | *Python, Machine Learning* — **2025**
- Developed a smart stadium crowd management and analytics system using computer vision
- Applied ML techniques for real-time occupancy detection and safety monitoring
- github.com/kh-nabeel/StadiumSense

VoteGuide India | *HTML, CSS, JavaScript* **2025**

- Created an accessible voter information and election guidance platform for Indian citizens
- Focused on simplifying complex electoral processes through clean UX and information architecture
- github.com/kh-nabeel/Voteguide-india

QR Quest – Useless Project | *JavaScript, QR Integration* **2024**

- Built a QR code treasure hunt game as a creative entry for TinkerHub's Useless Projects hackathon
- github.com/kh-nabeel/useless_project_singularity

AI for Legal Assistance | *Python, NLP, AI/ML* **2024**

- Developed an AI-powered legal assistance tool to improve access to legal information for underserved communities
- Built with NLP and prompt engineering for PromptWars Virtual hackathon
- github.com/kh-nabeel/PromptWars-Virtual

AgriML | *Python, Machine Learning, Scikit-learn* **2025**

- Machine learning project for agricultural predictions to assist farmers with data-driven decisions
- github.com/kh-nabeel/ML-Project—AgriML

Technical Skills

Design Tools: Figma, Affinity Designer/Photo, Canva
Frontend Development: HTML5, CSS3, JavaScript (ES6+)
Programming Languages: Python, C, Java
Database: MySQL
Version Control: Git, GitHub
Design Skills: UI/UX Design, Graphic Design, Wireframing, Prototyping, User Research, Visual Design
Soft Skills: Creative Problem Solving, Team Collaboration, Design Thinking, Communication

Languages

English – Professional Proficiency
Malayalam – Native Proficiency

Community Involvement & Extracurriculars

TinkerHub Campus Chapter — **NSS College of Engineering**
Active Member & Creative Designer — *2024 – Present*

ISTE Student Chapter — **NSS College of Engineering**
Creative Designer — *2024 – 2025*

STACS (Student Association of CS) — **NSS College of Engineering**
Creative Designer — *2024 – 2025*

IEDC — **NSS College of Engineering**
Creative Designer — *2026 – Present*

Achievements

Participated in TinkerHub's Useless Projects Hackathon – Built QR Quest

Participated in PromptWars Virtual Hackathon – AI for Legal Assistance

Over 10+ projects completed spanning UI/UX design and frontend/backend development

2+ years of hands-on design experience working with college tech communities
